My Voice, My Vote is for young adults with disabilities who want to make a difference. You can make your voice heard by voting and by getting involved in issues you care about. Watch our video about voting in Minnesota and check out the other resources linked on this page for young adults with disabilities. Some of these resources are for voters in Minnesota, but many others are useful for people across the U.S. Find out how to register to vote, learn about the many different ways to vote, and consider what it means to be a citizen.
